What is ecoPINE?

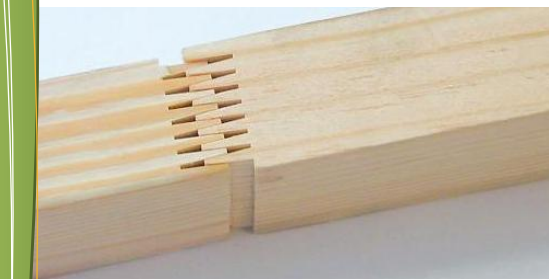

The **ecoPINE** range of Radiata pine products are manufactured from plantations. The Kiln Dried, Machined, finger-jointed products are treated in special low pressure wood treatment facility and are based on an eco friendly organic biocide system. The computer controlled process achieves 100% sapwood penetration and advanced quality control procedures ensure minimum retention levels are consistently achieved.

The organic biocides used in **ecoPINE** are insoluble in water and fixes into the wood cells. **ecoPINE** is double coated with oil based primers supplied by PPG Industries. The first coat provides a penetrating seal which provides water resistance and limits cracking. The application of the second coat provides further protection and provides a smooth paint-ready finish.

ecoPINE should only be used in above ground, exterior non-structural applications such as trim boards, corner boards, exposed millwork, door and window frames. **ecoPine** wood protection systems are supplied and warranted by world leading Arch Chemicals and are supplied with a 30 year transferable warranty against fungal decay, rot and insect attack.

WHY CHOOSE ecoPINE?

PLANTATION-FARMED FORESTS

All **ecoPINE** products are sourced from well managed plantation forests, sustainably grown in New Zealand

FSC CERTIFIED

By buying products with an FSC label you are helping to promote responsible forest management worldwide.

GREEN BUILDING CREDITS

ecoPINE qualifies for credit points under the following schemes:

- LEED for Homes
- NAHB Model Green Home Building Guidelines
- GreenPoint Rated (California)

ENVIRONMENTALLY FRIENDLY AND SAFE

ecoPINE's preservative system is based on organic biocides and is registered in the United States by the EPA. As **ecoPINE** is real wood and contains no hazardous additives it is safe to work with, just follow normal work-place safety practices for handling wood products.

INDOOR AND EXTERIOR USE

ecoPINE is safe for indoor use, as well as exterior (above ground only).

DURABLE

ecoPINE is treated under pressure, achieving total active penetration protection. The addition of waxes and resins into the formulation enhances its water protection properties. The active ingredients used in the treatment process are insoluble in water and will not be removed through leaching.

30 YEAR WARRANTY

A 30-year limited warranty is provided on **ecoPINE** products by ARCH Chemical against termite attack, rot or fungal decay.*

EASE OF USE

Unlike alternative composite, ceramic or plastic products, no special tools, cutting equipment or fixing methods are required.

DEFECT FREE

ecoPINE is a natural wood product manufactured from kiln-dried timber. All defects are removed prior to finger-jointing, then surfaced for a paint-ready finish.

TERMITE RESISTANT

One of the active protective ingredients in **ecoPINE** is Permethrin, a food-crop protection product that is proven effective against all known species of termites. This protection level is covered by our warranty.

PAINT READY FINISH

The machined finish of **ecoPINE** is enhanced by a two-coat system, with a performance warranty. Finish your **ecoPINE** surface with 2 coats of premium quality 100% acrylic exterior paint to the manufacturer's specification.

NON-CORROSIVE

As the organic treatment does not contain any corrosive heavy metals it will not cause corrosion to nails and other fastening systems.

S4S Trim Boards:

1x2,
1x3
1x4,
1x6,
1x8,
1x10,
1x12
Length = 16' & 20'

5/4 Trim Boards:

5/4x4
5/4x5
5/4x6
5/4x8
5/4x10
5/4x12
Length = 16' & 20'

E & CB/WP4

1x6
5/8x4
Length 12' & 16'
